

## 如何設定網路

### How to set the Internet

南港宿舍沒有提供 wifi，若需要 wifi 的話，請自行購買路由器。

南港宿舍僅提供有線網路。

請自行準備實體網路線，連接電腦與書桌上的網路孔即可。

若你原本住在東宿舍的話，請將你的電腦內的所有 IP 設定全部取消重設，IP 要全部設定為「自動取得」，電腦就會自動連線。

The Nangang dormitory does not provide Wi-Fi.

If you need Wi-Fi access, please purchase your own router.

Only wired internet is available in the Nangang dormitory.

Please prepare your own Ethernet cable and connect your computer to the network port on the desk.

If you previously lived in the East dormitory, please reset all IP settings on your computer.

All IP settings must be set to "Automatically," and your computer will connect to the internet automatically.

## Mac

>>系統設定 System Settings

>>網路 Network

>>乙太網路 Ethernet

>>進階 Advanced

>>TCP/IP

>>設定 IPv4 Configure IPv4

>>使用 DHCP 自動分配 Using DHCP Automatically

## Windows

>>網路和網際網路 Network and Internet

>>網路和共用中心 Network and Sharing Center

>>乙太網路 Ethernet

>>變更介面卡設定 Change adapter settings

>>網際網路通訊協定第4版(TCP/IPv4) Internet Protocol Version 4

>>內容 Properties

>>自動取得 IP 位址、自動取得 DNS 伺服器位址 Get IP automatically and Get DNS Automatically
